

AASIM SAFEER

Flutter Developer | Product Coordinator | Project Manager

Peshawar/KPK, Pakistan | +92 308 8881818 | asimsafeer75@gmail.com | github.com/asimsafeer

PROFILE

Computer Science graduate, Flutter developer, and project coordinator who turns business requirements into mobile apps, web platforms, dashboards, and UI/UX prototypes. Built and coordinated products across poultry operations, school management, AI assistants, sensor streaming, resume generation, productivity tools, and operational reporting workflows.

CORE SKILLS

Mobile & Frontend	Flutter, Dart, Next.js, React, TypeScript, responsive UI, animations, localization
Backend & Data	Firebase, Cloud Firestore, REST APIs, SQLite, Drift, Hive, Laravel/PHP fundamentals
Product & Tools	Figma, GitHub, Jira, Asana, Trello, Notion, ClickUp, Agile/Scrum, stakeholder documentation
Features Built	PDF/Excel exports, notifications, auth, dashboards, reports, local sync, MQTT/HTTP streaming

PROFESSIONAL EXPERIENCE

Project Manager, Product Coordinator & Developer | Creative Engineering & Management Services | August 2024 - Present

- Led and contributed to digital products for poultry operations, feed calculation, reporting, and farmer-facing tools.
- Translated business requirements into UI screens, feature lists, sprint tasks, data flows, review cycles, and release priorities.
- Designed UI/UX in Figma and implemented Flutter interfaces using Firebase, PDF generation, notifications, local storage, and reporting patterns.
- Coordinated delivery across stakeholders, developers, testers, and leadership; managed timelines, risks, QA feedback, and handover documentation.

Lead Project Coordinator | Creative Engineering & Management Services | May 2023 - July 2024

- Managed daily task assignment, follow-up, and progress reporting for cross-functional teams supporting CEO-level priorities.
- Built tracking systems for tasks, accountability, productivity, and executive visibility across operational workstreams.
- Improved team communication through structured updates, documentation, and platform-based follow-ups.

Project Coordinator - Website Redesign | SAS Engineering | November 2025 - December 2025

- Served as client liaison, translated requirements into design/development tasks, and coordinated content, images, and review feedback.

SELECTED PRODUCT & ENGINEERING PROJECTS

Poul3y App - Flutter, Firebase, Figma: Poultry management app for flock data, disease tracking, resource planning, PDF reporting, farmer workflows, field research, and 50+ pilot users.

Poultry Calculator - Flutter, Firebase, PDF, Ads: Feed estimation app for broiler/layer calculations with receipt generation, sharing, localization, notifications, analytics, and monetization.

Flock Manager - Flutter, Firebase, Reports: Poultry operations system covering flock setup, mortality, feed, vaccine, medicine, inventory, catching, recoveries, sharing, and reports.

EduX School Management - Flutter, Drift, SQLite, Riverpod: Offline-first school management with attendance, fees, exams, expenses, canteen, students, guardians, staff, exports, reports, and local sync.

Nimbus AI - Flutter, Gemma, Drift: Privacy-first on-device AI assistant with local chat, voice input, image/vision features, model download management, and local persistence.

Sensor Fusion - Flutter, MQTT, HTTP, Python: Android sensor streaming app for motion, GPS, BLE, microphone, light, and proximity data with live charts, background service, and server transport.

Other Apps - Flutter, Kotlin, Next.js: BootAlarm, Freezer, ScriptFlow, Promptly, Dice & Dares, Offline Resume Builder, NotchHub, and Orchids Expense Tracker.

EDUCATION & CERTIFICATIONS

- BS Computer Science - City University of Science & Information Technology, Peshawar (2021 - 2025)
- Diploma in Information Technology - Export IT & Solution
- Foundations of Project Management - Coursera
- MS Office - Coursera
- Create a Mockup in Figma - Coursera
- Create IT Diagrams with Lucidchart - Coursera
