

Aasim Safeer

Mobile & Web App Developer | Project Manager & Lead Coordinator

Peshawar, Pakistan | +92 308 8881818 | asimsafeer75@gmail.com

Computer Science graduate who has independently built 15+ production-ready mobile apps, Android utilities, macOS tools, and web platforms — using Flutter, Dart, Next.js, Swift, Python, Kotlin, and Firebase. Simultaneously an experienced Project Manager & Coordinator: skilled in Agile/Scrum execution, stakeholder management, timeline tracking, and end-to-end digital project delivery. Combines hands-on engineering with strategic project oversight — equally capable of shipping production apps and leading cross-functional teams.

SKILLS

Technical Skills	Managerial Skills
• Flutter & Dart (Mobile / Web / Desktop)	• Project Management & Coordination
• Android Development (Java, Kotlin)	• Cross-Functional Team Collaboration
• Swift & SwiftUI (macOS Applications)	• Executive Support & Stakeholder Management
• Web Development (Next.js, React, TypeScript)	• Administrative Planning & Documentation
• Python & ML / Data Science (MLOps)	• Risk Identification & Problem Solving
• Firebase, Riverpod, REST APIs	• Workflow Optimization & Process Improvement
• Git & Version Control	• Data Analysis & Reporting
• UI/UX Design (Figma, Neumorphic Design)	• Digital Project Delivery (Mobile, Web, UI/UX)
• Agile & Scrum Methodologies	• Vendor Evaluation & Contract Coordination
• Task Tracking (Jira, Asana, Trello, Notion)	• Team Leadership & Accountability

PROFESSIONAL EXPERIENCE

Project Manager & Coordinator	
Organization:	Creative Engineering & Management Services
Duration:	August 2024 – Present
Achievements:	- Led end-to-end development of a mobile application and website, from vendor selection to final delivery, ensuring alignment with company goals. - Researched and shortlisted software companies, evaluated proposals and coordinated contracts for app development. - Managed all project phases including UI/UX approvals, feature reviews and multi-team collaboration. - Oversaw timelines, tracked progress, identified risks and implemented solutions to keep projects on schedule. - Acted as the primary liaison between internal stakeholders and development teams, facilitating clear communication and timely decision-making. - Successfully drove the project independently after handover from the company, leading meetings, monitoring progress and ensuring delivery quality.

Project Coordinator	
Organization:	Creative Engineering & Management Services
Duration:	May 2023 – July 2025
Achievements:	• Managed daily task assignment and tracking for a cross-functional team to ensure clarity and accountability. • Delegated tasks assigned by the CEO to team leads and members, monitored completion and followed up daily to keep projects on track. • Reviewed team progress and reported performance to CEO, enabling data-driven decisions and operational efficiency. • Guided team members to manage their own tasks, encouraged independence and improved overall accountability. • Facilitated communication and follow-ups across multiple platforms, streamlining workflow and reducing delays. • Built and maintained a sustainable system to track performance, optimise productivity and allow leadership to focus on strategic priorities.

Project Coordinator Website Redesign Project	
Organization:	Sustainable Allied Services Engineering
Duration:	November 2025 – December 2025
Achievements:	• Served as the primary liaison between the client and development team, translating requirements into actionable design and development tasks. • Coordinated and provided all necessary resources, including images, content, and reference materials, to ensure seamless project execution. • Maintained project timelines, monitored progress, and integrated client feedback to guarantee the final website aligned with expectations. • Facilitated effective communication between stakeholders, reducing delays and ensuring smooth workflow throughout the project lifecycle.

FINAL YEAR PROJECT

Poul3y – Digital Poultry Management Application	
University:	City University of Science & Information Technology
Duration:	October 2024 – June 2025
Achievements:	• Collaborated with a teammate to conceptualise, design, and develop the Poul3y App — a digital platform modernising poultry industry management through real-time data access, disease tracking, and resource planning. • Managed all phases of the project lifecycle from user requirement gathering to UI/UX design, development, and testing using Flutter and GitHub. • Conducted stakeholder interviews and field research to align app features with real-world needs. • Reduced development time by 15% through efficient sprint planning and collaborative coding practices. • Successfully deployed a pilot version, with 50+ users testing functionality in real market scenarios.

PERSONAL PROJECTS & APPLICATIONS

Flutter / Dart — Mobile Applications

NimbusAi

Flutter · Riverpod · MediaPipe ·
Gemma 4 · Cloudflare R2

- Offline-first AI chatbot running Google Gemma 4 E2B (1.5 GB) 100% on-device — zero cloud inference after a one-time model download.
- Supports text chat, multimodal image Q&A, and voice-to-text — all fully offline; model distributed via Cloudflare R2 with SHA-256 verification.

EDU_X

Flutter · Dart · SQLite/Drift · mDNS
WiFi Sync

- Comprehensive offline-first school management system: desktop hub + teacher Android app.
- Teachers mark attendance offline; app auto-discovers the main system on local WiFi via mDNS and syncs at end of day. Covers student management, fees, licensing, and multi-device sync.

Freezer

Flutter · Kotlin · Android VpnService ·
Riverpod · Hive

- Android app that freezes selected apps by blocking their network access via a local VPN (no traffic leaves device) and suppressing notifications — fully Play Store compliant.
- Features smart time-based schedules, Work/Home profiles, activity logs, Quick Settings tile, and per-app toggle.

ScriptFlow

Flutter · Kotlin · Android
WindowManager · Drift · Speech
Recognition

- Floating teleprompter overlay for content creators that renders on top of ANY app (Instagram, TikTok, Zoom, native camera) using SYSTEM_ALERT_WINDOW.
- Auto-scrolls scripts and optionally follows speech in real-time via offline recognition; freemium monetisation. Flutter handles UI; native Kotlin manages overlay, foreground service, and scroll engine.

Boot Alarm

Flutter · sqflite · Provider ·
Neumorphic UI

- Smart alarm app for developers: must correctly answer programming MCQs (1,000+ questions across C++, Python, JavaScript, ML/DL, Networking) to dismiss the alarm.
- Spaced-repetition question selection, adaptive difficulty, anti-cheat 7-second penalty, offline-first storage, dark/light neumorphic UI, and progress tracking.

PneumoScan

Android · Java · CameraX · AI
Inference · AdMob

- Medical Android app enabling users to capture or upload chest X-rays and receive AI-powered pneumonia analysis results.
- Educational modules on symptoms, causes, treatment, and prevention; AdMob monetisation and subscription screen.

Poultry Calculator

Flutter · Dart — Published on Google
Play Store

- Feed estimation app for poultry farmers: select bird type (broiler/layer), enter flock size → instantly generates a shareable feed requirement receipt.

Offline CV (Resume Builder)

Flutter · Dart · PDF Export —
Published on Google Play Store

- Privacy-first offline resume builder: all data stays on device — no accounts, no servers, no third-party sharing.
- Multiple professional templates, PDF export, works 100% without internet.

Promptly

Flutter · Firebase · Riverpod

- Premium AI prompt gallery with 300+ curated prompts for image generation; Firebase backend, categorised browsing, and favourites.

Dice & Dares

Flutter · Google Play Games · Provider

- Party game app combining dice rolls with dare challenges; multiple themed modes and difficulty levels.
- Integrated Google Play Games achievements and leaderboards.

Web Applications

Portfolio Website

Next.js · TypeScript · Tailwind CSS

- Personal developer portfolio website showcasing projects, skills, and experience with responsive modern UI.

Expense Tracker & Resume Generator

Next.js · TypeScript · Tailwind CSS

- Expense Tracker: personal finance web app with category-based tracking and visual reports.
- Offline Resume Generator: client-side resume builder that generates and downloads PDFs without a server.

macOS Application

NotchHub

Swift · SwiftUI · AppKit ·
AVFoundation · NaturalLanguage

- macOS utility that transforms the MacBook notch into a productivity hub: media controls, file shelf, AI tools, and system stats.
- Distributed as a standalone .dmg; competes alongside NotchNook, Alcove, and BoringNotch in the macOS notch-app market.

Engineering & Data Science

Android Sensor Fusion App

Android · Java · MQTT · HTTP · SQLite

- Research-grade Android app streaming multi-sensor data (accelerometer, gyroscope, GPS, barometer, etc.) to local servers or MQTT brokers.
- Per-sensor rate control (1–400 Hz), live graph visualisation, configuration profiles, JSON/CSV/CBOR output, and TLS/authentication support.

MLOps Project

Python · scikit-learn · Pandas · Jupyter

- End-to-end ML pipeline applying MLOps best practices: data ingestion, feature engineering, model training, evaluation, and artifact management.

MAJOR REPORTS / RESEARCH WORK / BUSINESSES

CruzeX – Autonomous Vehicle Technology Research

Final year project — Support
(class fellow)

- Providing support in the development of the Self-Less Driving Car final year project, focused on autonomous vehicle technology.
- Actively involved in research, design and implementation of critical project features.
- Collaborating closely with the project team to ensure timely achievement of project milestones.
- Assisting in identifying and resolving technical challenges during development.
- Gaining hands-on exposure to cutting-edge automotive technologies and strengthening cross-functional collaboration skills.

Business Auditor | CEMS

July 2024

- Conducted field audits for partner shop owners to verify inventory and sales records.
- Ensured company investments and revenue were accurately accounted for, identifying discrepancies.
- Prepared reports on findings for management, supporting financial accountability and operational decision-making.

EDUCATION & CERTIFICATIONS

- **Bachelor of Science in Computer Science** | City University of Science & Information Technology, Peshawar, 2021 – 2025
- **Diploma in Information Technology** | Xpert IT Solution & Training
- **MS Office** | Coursera
- **Create A Mockup in Figma** | Coursera
- **Create IT Diagrams with Lucidchart** | Coursera
- **Foundations of Project Management** | Coursera

LANGUAGE

- Pashto — native language
- Urdu — speaking, reading, writing
- English — speaking, reading, writing
